Post – Event Tour

Curiosity Lab at Peachtree Corners is the world's first 5G-enabled living laboratory for testing, demoing and deploying autonomous vehicle and smart city technology. It is a publicly funded living lab designed to provide a real world test environment to advance intelligent mobility and smart city technology. Located within a 500 acre technology park where 7500 people work and more than 8000 people live and work, Curiosity Lab provides unique infrastructure and a supportive government to facilitate innovation.
